## Do you want to improve your business's profitability?

**Are you concerned about rising costs?**

**Are you operating a small or medium sized business?**

If you answered Yes to these questions, then here is your opportunity to control your Energy, Water and Waste Management costs!

A group of **local** experts are delivering a special workshop programme which includes 12 months of specialised coaching to help your business become more profitable by identifying practical and often low-cost methods using "green" business practices to lower your costs. You will also reduce your environmental footprint. The programme is funded through the Federal Government's *Building Entrepreneurship in Small Business (BESB)* program and it's coming to your area soon!

We guarantee that by implementing some of our strategies, your organisation can improve its bottom-line profitability!

### **Participants of the program will receive:**

- ***A 2 hour interactive workshop, tailored to conditions in North Queensland and your industry***
- ***Assistance/tools to identify your current energy, water and waste management situation***
- ***Practical methods to optimize your operational costs and your environmental footprint***
- ***12 months of coaching and monitoring of relevant data and benchmarking within your industry***

**This program is valued at over \$3,000, but thanks to the Federal Government subsidy, we're offering it for a nominal registration fee of \$27.50!**

**Interested?** Just go to our website at [www.goinggreenbiz.com](http://www.goinggreenbiz.com) to register.

Call **Kleinhardt Business Consultants** on **07 4040 7100** if you require more information.

Places are limited so please register early!
